

Colourlight

Lighting can be so much more than the production of lightness. Go new ways. Take color into the darkness, and make light an experience. Colored light.

bocom develops and produces a wide range of products that create and control colored light: state-of-the-art LED colored light sources for the most various purposes and conventional colored light tube technology for particular tasks. With the help of bocom control dynamic color cycles can be realized simply and reliably.

You will find our colored light technology in architecture, stage lighting, in living areas, at fairs and events, in lamps or lights and many other appliances as well as in creative and artistic light objects.
